Am I eligible for UQ’s travel insurance?

Automatic travel insurance coverage applies to staff undertaking a journey more than 50km from their normal place of residence or business premises and is either:

1. Approved University travel as per 1.90.01 UQ Travel Policy and Procedures; or
2. Approved work off campus as per 2.30.09 Work Off Campus Policy and Procedures.

Overseas Employees – If you are residing and working in another country as an employee of UQ, please visit our Overseas Employees webpage to obtain information about the insurance cover you should be considering.

When am I covered?

You are covered under UQ’s travel insurance for:

- Direct travel to and from the location of your University business;
- All Business days (unless your journey has a private travel component);
- Incidental Private Travel.

What is Incidental Private Travel?

This is similar (but not identical) to the FBT dual purpose travel rules. For insurance purposes, Incidental Private Travel means:

- Approved private gap days (refer to FBT dual purpose travel rules);
- A weekend immediately adjacent to a business day where you will be undertaking direct travel to and from the location of University business.

Incidental Private Travel will only be covered where it is in the same country/s as the University business.

When do I need my own travel insurance?

You are responsible for your own travel insurance when:

- You are not on approved University travel;
- The private component of your dual purpose travel is not within the same country as your adjacent business days; or
- You are undertaking additional private travel before or at the conclusion of your UQ business (even if in the same country).

Insurance can be arranged online through Chubb Travel Insurance or an insurer of your choice. Use of Chubb Insurance is between you and Chubb, and in no way associated with the University.

Pre-Existing Medical Conditions

Emergency medical expenses for Pre-Existing or Prior Medical Conditions are not covered in the following circumstances:

- Your travel is taken against the advice of a doctor, including a specialist;
- The travel is for the purposes of seeking medical treatment for a pre-existing condition;
- The claim for expenses is for medication or ongoing treatment which you have been advised to continue during travel.

Pre-Existing Medical Conditions include any physical defect, condition, illness, or disease which treatment, medication or advice has been received or prescribed by a doctor in the last 12 months and include conditions which a reasonable person in the circumstances would be expected to be aware of at the time of booking their journey.

If you have any concerns regarding your fitness to travel, we recommend you ask your doctor to confirm your fitness by completing the ‘Fit to Travel Report’ at the end of this information sheet and we request that you retain a copy in the event of a claim.

There is no cover for Pre-Existing or Prior Medical Conditions under the Personal Accident & Sickness section of the policy.

Am I travelling to a safe country?

Check the security situation for your destination/s (both for approved University travel and any private travel in conjunction with your approved University travel) on smartraveller.gov.au and register with red24.com/affiliates/chubbau/ to receive email travel alerts.

As travel to level 3 or level 4 countries are very high risk, approved private days to these countries should be kept to a minimum. You must comply with the specific restricted area approval requirements that apply from the UQ Travel Policy and Procedures.

You must also separately notify Insurance Services insurance@uq.edu.au if you are travelling to Afghanistan, Chad, Chechnya, Cote d'Ivoire (Ivory Coast), Democratic Republic of Congo, Iran, Iraq, Israel, Libya, Myanmar, Somalia, South Sudan, Sudan, Syria or Yemen so that the University’s insurer can be notified.

Frequently Asked Questions

Q. What is a Certificate of Currency?
A. A Certificate of Currency is a document from the University’s insurer, certifying that the University has a current Travel Insurance policy in place. It includes the traveller’s name, dates of travel, limits and period of coverage.

Q. How do I get a Certificate of Currency?
A. Please request certificates by emailing insurance@uq.edu.au and specifying: Full name of the person (as per passport), staff number, Passport Number, Travel Request Number, why the certificate is required (e.g. visa requirement) and your Dual Purpose Travel calculator (if your journey has a private travel component).

Q. How do I know if my travel is UQ Approved?
A. You will have received a Travel Request Number in UniFi and it will show as “approved” on UniFi. For domestic travel you must have evidence of written approval from your Supervisor (email is sufficient).

Q. Do I need to buy insurance?
A. You need to arrange your own travel insurance if you are not on approved University travel or the private component of your Dual Purpose Travel is not within the same country as your adjacent business days, then you will be covered by UQ’s travel insurance. You can purchase this through Chubb blt.chubbtravelinsurance.com/oq or an insurer of your choice.

Q. Can I extend the UQ Travel Insurance policy?
A. You cannot “extend” the UQ Travel Insurance policy, but you can take out cover for any excess travel through Chubb blt.chubbtravelinsurance.com/oq or an insurer of your choice.

Q. Do I have a personal policy number I can quote for this insurance?
A. You won’t receive a personal policy number. You are insured under UQ’s corporate policy number: 01PP529201.

Q. I recently travelled to Europe for work and came down with bronchitis and had to see a doctor and he prescribed some medication. Are both the doctor’s appointment and the medication covered?
A. Yes, both the doctor’s appointment fee and medication are claimable. You need to pay the doctor’s fees and prescription in the first instance and then claim for reimbursement. A $100 excess applies. For example if the doctor’s appointment costs $150 and the prescribed medication costs $20 (totalling $170), you will be reimbursed $70 after the $100 excess is applied.

Q. I will be undertaking fieldwork in the USA from 20/10 to 8/12, which has been UQ approved. I will be 2 months pregnant when I depart and will return when I am about 3 months pregnant. I have been to see a travel doctor and my regular doctor and both have advised that I am fit to travel. However, they indicated that I should check the insurance policy to ensure that any medical emergency as a result of an unforeseen complication of the pregnancy would still be covered?
A. Pregnancy is covered but only for unforeseen emergency circumstances. Medical expenses for a Premature birth is only covered if it is due to a sickness or injury. No cover is provided for routine pregnancy, birth or other routine expenses. Expenses that are incurred where a Journey is undertaken against the advice of a Doctor or when the Covered Person is unfit to travel is not covered. Please have your doctor complete a Fit for Travel Report prior to travelling and email to insurance@uq.edu.au.

Q. Is it okay to have two concurrent travel insurance policies? Which one do I claim through?
A. You can have concurrent travel insurance policies. If you need to make a claim, you must claim from your own travel policy in the first instance. The policy held by the University will only provide cover for any differences in cover and you will need to disclose the details of your concurrent travel insurance policy when claiming through the University.

Q. Will the insurance cover the dates I am flying back to Australia?
A. If your travel doesn’t contain a private travel component, yes UQ’s travel insurance will cover your return flight. If your travel contains a private travel component, please enquire with insurance@uq.edu.au.

Q. Should I take out insurance when I rent a car overseas or does the travel insurance cover that?
A. You need to take out comprehensive insurance and all compulsory motor vehicle insurance provided by the rental organisation. Provided that these insurances have been taken up, the UQ travel insurance policy will cover the hire car insurance excess up to $5,000.

Q. My business travel in USA ends on the 1st August. If I want to travel around the USA from the 2nd August until the 16th August and then fly back to Australia, arriving on the 18th August, what dates should I cover periods of personal leave taken while travelling overseas for work? I will be away for a bit over one month and will be taking a total of 7 days personal leave during that time.
A. If you are on approved private gap days where you will be in the same country as your adjacent business days, then you will be covered by UQ’s travel insurance policy. However if your private travel is not within the same country as your adjacent business days or you are undertaking additional private travel before or at the conclusion of your UQ business, you will need to arrange your own travel insurance cover.
